

**IN THE UNITED STATES BANKRUPTCY COURT
FOR THE DISTRICT OF UTAH**

Notice

September 20, 2006

To: ALL MEMBERS OF THE BAR AND OTHER PARTIES IN INTEREST

From: David Sime, Clerk of Court

**Re: Upcoming Release of CM/ECF which includes the BAPCPA Statistical
Requirements effective October 16, 2006**

The Bankruptcy Court for the District of Utah will be installing a new release of CM/ECF on Monday October 16, 2006. This upgrade is necessary in order to capture statistical data required by Congress in the Bankruptcy Abuse Prevention and Consumer Protection Act as well as the specifications identified by the Judicial Conference. In preparation for the new release, the Court's electronic databases will not be available October 14-15, 2006 including: Electronic Case Filing (ECF); Public Access to Court Electronic Records (PACER); and the Voice Case Information System (VCIS). In addition, the Court's website (www.utb.uscourts.gov) will be unavailable.

This new release contains significant changes in the case opening process and the Court is requesting attorneys to check with petition preparation software vendors to coordinate any software updates with this new release (3.1). In addition to case opening changes, this release contains many other changes or enhancements which will improve usage on the system for both internal and external users.

The Court will provide training materials including computer-based training (CBT) and written guidelines, event lists and detailed user information as the installation date draws near. In addition, the Court will present a demonstration and training materials prior to the Bankruptcy Lawyers' Forum on October 11. Please check with the Court's website for details on the pre-forum training. If it is determined there is need for additional training, the Court may conduct user training at the Court during the week of October 16, 2006.

Please check the Court's website for the most current information and training materials. Likewise, the Court will send an update regarding training and other information related to the new release in the next few weeks. If you have questions regarding the content of the BAPCPA statistical requirements, please contact me at 801-524-6565 or if you have technical or implementation questions call Brenda Dowler at 801-524-6635.
